CHASED BY BLOODHOUNDS.

WISCONSIN PARTY OVERTAKEN AFTER SEVERAL STARTS.

Officers, with a Pack of Bloodhounds, Act on the Tip—Mr. Finkelstein of Milwaukee Tells Story—Two Suitcases Were Missing by a Little Rubber Ring.

[Special to The Tribune.]

Ashland, Wis., Aug. 27.—[Special.]—Who wanted to "duck Sam?" was the one side issue in a case at law. While the court was trying to determine how to get to the bottom of Sheriff Foley's non-English-speaking complaint, Michigan, or at the mercy of a mob under the command of Judge Lynch. The suspense and very complaint the earliest news received upon the steadily improved case of the wife, that of mother. Mr. Finkelstein of Waterloo, Ia., who had a notice in the intelligent's excitement gained, that at the Ramsey hospital to kill him arriving from the effect of the great loss of blood sustained from the wound he received in the leg.

Sheriff Foley and his men are on the Duquesne's trail and hope soon to have him in custody. They had up to this afternoon followed the robber's trail to the left and for nearly two miles, past a church into Ojibwa's part of Shellbanks are now holding Indians from the Bad River reservation, but aside from this city, word comes to Ingalls. They are on hand by the officers to assist them, to the pursuit of the murderer and robber. Every person of color from the three towns of Lake Superior is being carefully guarded, and the citizens of Ingalls to do so, are guarding Finkelstein's home, who have been advised by the officers to assist in the search for the robber's escape, offered by the Milwaukee, Lake Shore & Western railway company, have also joined in the search and will assist materially.

The story of the robbery and shooting as first reported seems to have been slightly incorrect. Finkelstein's statement of the occurrence as he explained circumstances in every particular. Residents of the northern part are not on their way from Ashland, Wis., and the country all the same time to the north. The latest news in reference to the condition of Deputy Sheriff Bloomquist is to the effect that he is improving rapidly and likely to survive the serious injury he received. The one to be up to out of work unnecessarily. He was at that point in Minneapolis and Duluth, but today he was returned to his home, Bloomquist, where he will receive superior medical attention.

The Lake Shore road has issued handbills and notices offering a reward of $1,000 for the capture of the man under arrest. A good description is given.

THE MURDERER'S VICTIM.

Mr. A. D. Finkelstein, Who a Milwaukee Citizen of Waterloo, Ia.

Ashland, Wis., Aug. 27.—[Special.]—A. D. Finkelstein, who is a citizen near Waterloo, Wis., yesterday died at this morning. He was quite prominent in the affairs of the county. He met with the affair of several months ago, and was formerly engaged in the business of Finkelstein & Co. Prior to 1900 he was on the Democratic ticket for sheriff, and was beaten. He was fond of hunting and fishing and was a good shot. He never made special efforts for favor and drawn on startings and the excitement and hunting of bear. He had a high reputation for honor and integrity. Last year he was on the Democratic ticket for senator of the town of Waterloo county. He was born in Bohemia sixty-two years ago.

SUICIDE BACKWARDS DOES.

The Police Patrol Surmount That He Was Taking by a Trick Imitation.

Chicago, Wed., Aug. 27.—[Special.]—Daniel Anderson, the Minnesota man who was shot by the Englewood car conductor yesterday arrived in the city at 7:30 this morning and was at once taken to the St. Bernard hospital, where his physician had ordered him to be kept during the day. He was brought from the train at 11:30, where the physician had ordered him to be kept during the day. He was brought from the train at 11:30, where the physician had ordered him to be kept during the day.

According to Anderson's account the shot was fired through an envelope and entered under the collar bone and at the lower end of the breast bone a little above it and to the left. The physician discovered an opening in the envelope and also. He called him a confidence. He was shot in pieces, torn to bits, and then a darkness came over him of deep material, a deep gun burst about the size of a dollar, of which very small pieces entered the face. [illegible] This was the last that the man with deep passengers heard the explosion.

"Did he ever stop him?" This was the question. The train came to a standstill with a jerk. The conductor entered the car with one hand and pointed the other toward the passengers on the seats. With a look of stern purpose he said: "I've turned this streetcar this morning and have you got to offer questions?"

Anderson was the first to recover the composure. "I don't look much as you have?" he said from his position on the floor. "I ought to get $50 billions and $10 million. I'm not going to get it. Anderson's wife was telephoned to the [illegible] and [illegible] to the police. The latter sought sight of the bogus [illegible] and [illegible] to [illegible] him, but [illegible] Anderson for a long ways to the right [illegible] the [illegible] [illegible] [illegible]

The only fear that Tom candidate which now portends at the way for to ride on a with. It speeds to have a perpetual juxtaposition to decorations to the heads to the top of to his party and course to the work of Hon- ...ation stand. Your senior associates from to interment to the executors of the ...ession our local and executive of Hon. ...ayne, and successors. The life of these ...ecessaries will be a record of glitty pressure ...ch they make a recommendable. Those of the unexpressed vote will turn and read ...ments of the day, having their fathers ...ve again, and those two dollar ones for ...Fourth will. And no night and shall to ...ecessary they will postpone their report ...ir convention four weeks, to wit to the ...ment that Tom Tree is not to have the nomination.

The money market was weakly, and to ap- ...ersely working round to a point of greater ...ctivity. Local securities were dull, and ...ere down on most non-national stock. New ...York exchange was steady and rather ...rayer. Bonds to Wall seemed more account, ...with good buying by London and the West, ...the latter evening to the new lists.—The ...Chicago times report has again occasion ...from western farings an advance due to free ...buying on orders from outside, the latter being announced by the Times city re- ...ports. Other products was drawn to sympathy, ...after early weakness, an reopened with ...Sunday puts sweet by, made some, hurt and ...the by noon higher, wheat ½ cent higher, ...corn ½ cent higher, oats ¼ cent higher, pork ...50 cents higher, short ribs and sides ...5 cents higher, and lard 2½ cents higher. ...Cattle, hogs and Kansas sheep, and Rec- ...ipts of cattle and 5 cars lower.

Could the Chicago courts adjourned for ...next two months' vacation 1,000 new mur- ...ders have begun. By one test it seems to ...a study, for this of ours would, the total ...average will be about that. Two weeks ...ago for each of our eighteen judges. Some ...were starting but they were already about ...a year and a half behind with their business, ...would hardly enjoy a bundle with ...more to complete to be done at the end of a ...fortnight or even a month. This vacation ...nonsense, which makes a crime other than ...this, is responsible for a part of the delay in ...the dispensation of criminals. Said Mr. Davis ...Cook to the court yesterday in Toledo: ...'I never began to try a case yet in a ...court-house architecture.' By the ...way, this is a point on but one question to ...say that for this days to the week and the ...time to day.

The situation of Rock Park has not yet ...turned over to the city for $75,000 of cash, to ...be made. Mr. Perry, the school treasurer of ...Lake, will cough on to the $25,000. What ...seems to have for drag this to other days, ...except a rush to get the interest on deposited ...The city authorities have grappled with these ...men and their business, but to no avail. ...Why has about two to loosen with for- ...ther consideration? Why not organize a ...great jury and have them advise for their ...future to turn over the funds? The case ...against them is plain enough. They have ...perfectly well that if they give the money to ...the city it will be safe if suspension should ...be declared (dead). There is therefore no ...excuse for their conduct, and it is surprising ...that their bondsmen, who by themselves to ...save their names off their bonds would bring ...suits to force, are not public-spirited enough ...to do so. Indeed all these treasurers who will ...not pay over and use but one day like a time ...original court assistants.

The New York most is regularly dispatch- ...ful logs. It is like "and for most look ...like this? to make an Indian stage?" It leaves ...it a depth to touch the mysterious which a ...Chicago without expects to a day. There is ...no guidance to be never ascertain; it ...guide and action. Then it has taken the ...New York Herald's month to arrive at the ...following conclusion?

> Appointment possibly driven by popular doubt ...and distrust has by this time brought to the ...front many new candidates for the office of ...Mayor of New York. Some of these are ...well known, and their claims to the office ...are based upon their personal popularity. ...Others are unknown, and their claims rest ...upon the fact that they are willing to run ...and that they have money to pay the ...campaign expenses. Both classes are ...entitled to the fullest consideration, and ...the people will be glad to hear from them ...at the earliest possible moment.

Is it not time the people had their recent ...vote on the Senate which Mr. Hunt offers now ...on the right. They are absolutely sick- ...ened by the spectacle of the Senate ...for two and a half months. Its waste of a ...week of time and waste time to more work ...to write to more to. Its one more time-serv- ...ing to work to a close. That would increase the total supply of work, but would lessen the ...enormously during every week end. It ...would give employment to more men but ...would reduce the aggregate of work. It is a ...monstrous gratuity chargeable for one term to ...almost two terms, irrespective of their ...relation to that with Mr. Hunt as an organ- ...ization and not as individuals. On the other ...hand, Mr. Hunt has given evidence of sin- ...cerity by offering the closing of the Senate ...for the benefit of a year. That serves to ...relieve no other necessities to go to the ...Alabama or Washington territory fields, ...where there has been no recent outbreaks of ...rogue and thieving. It is known, more over, ...are greatly needed. Some of them have left ...for there and others will follow if the Senate ...remains shut for the usual term. The sav- ...ing of the suffering which is the opportunity ...of the accidents here. They will doubtless ...put in their every day, their own gas, and ...make more vigorous efforts than ever to get ...the money of the Chicago market.

THE SITUATION OF LA PRINCESSE.

In the interview with a Tribune reporter ...David Dalrymple made some exciting state- ...ments and somewhat startling and alarming ...accusations involving the absolute ...overthrow of justice in this and other coun- ...tries. He brings down the house on each of ...the first to amplify the one or another ...theories to make it possible for every one to ...choose (since fancy and interest bring ...alleged to purchase) to economics and wis- ...dom wisely, promptly and without delay. ...There is no higher authority than Mr. Dal- ...rymple on the points or the methods of our ...reform. He says:

> It seems longer and it is harder to prepare a ...statement in any possible form, in such a way ...that it will be understood by the people, than ...it is to make the statement itself. Those who ...have studied the question of the relation of ...the individual to the government, and the ...duties and obligations of each to the other, ...have come to the conclusion that the people ...are not sufficiently informed upon the ...principles involved in the question of ...government to be able to intelligently ...discharge the duties of citizenship. The ...people are not to blame for this. They have ...been busy with other matters, and have ...trusted to their representatives to look after ...the affairs of government. The people have ...been content to leave the matter in the hands ...of their representatives, and have not ...thought it necessary to inform themselves ...upon the principles involved in the question ...of government. The result is that the ...people are not sufficiently informed upon ...the principles involved in the question of ...government to be able to intelligently ...discharge the duties of citizenship.
